

**North Warwickshire
Borough Council**

**Community Infrastructure
Levy (CIL)**

**Regulations 123 List for
2015/16**

1. This Regulation list is valid from 1st April 2015
2. Regulation 123 of the Community Infrastructure Levy Regulations 2010 restricts the use of planning obligations for infrastructure that will be funded in whole or in part by the Community Infrastructure Levy (CIL), to ensure no duplication between the two types of developer contributions.
3. A CIL charging authority is expected to publish a list of infrastructure that will benefit from CIL on its website. The table below sets out the list of infrastructure projects that North Warwickshire Borough Council intends will be, or may be, fully or partially funded by CIL. In accordance with Regulation 123, developer contributions to the projects listed below will not be sought through planning obligations.
4. The inclusion of either a project or infrastructure type in this list does not signify a commitment from North Warwickshire Brough Council to fully or partially fund all the projects listed, allocation of Community Infrastructure Levy income is agreed through the Council's Capital Programme. Further, the order in the table does not imply any order of preference for spend and North Warwickshire Borough Council will review this list at least once a year as part of its monitoring of CIL collection and expenditure. The list therefore identifies projects from the Council's Infrastructure Delivery Plan that may require Community Infrastructure Levy funding to support delivery of the project.
5. Where required infrastructure delivery has been secured by means of a Planning Obligation, in relation to planning permission granted prior to Barnet's CIL Charging Schedule coming into effect, then the balance between CIL and Planning Obligations for any new application will be considered. The Council commits to update this Regulation 123 list with the results of such discussions.

North Warwickshire Borough Council
Community Infrastructure Levy
Regulations 123 List for 2015/16

Table 1: Infrastructure projects that may be partly or wholly funded by CIL *

Transport

* Underlined or italicised text is for heading, clarification or categorisation purposes only and should not be treated as constituting a broad capture all allocation of Community Infrastructure Levy income. To avoid doubt, this means the Council may consider alternative projects within these categories as suitable for delivery through a site specific Planning Obligation, provided this complies with all relevant legislation.
