Environment Agency

SEA Screening request for Arley Neighborhood Plan

Subject: Environment Agency Response to: UT/2009/106364/SE-02/DS1-L01

We agree with the report's conclusions and do not consider further work on the SEA and HRA necessary for the plan to progress as it is unlikely to have any significant environmental impacts that have not been previously assessed as part of the SA for the site allocations DPD.

Yours sincerely

Ms Noreen Nargas
Planning Advisor

Highways England

We have reviewed the Plan and are content that the proposals will not have a detrimental impact on our asset, principally the M6 motorway. Consequently I confirm that we have no objections and are satisfied for the consultation to continue without further comment being necessary.

Comments on Arley Neighbourhood Plan

PAGE	PARAGRAPH	Action	NWBC RESPONSE
	General	√	All maps should have the copyright on with Arley's own license number on (PSMA Agreement) – this is important as Arley could be get fined by OS
	General	√	Suggest that paragraphs are numbered – it makes things easier when people are commenting on the plan and can just refer to a paragraph number
4	3	√	Change the date of submission
4	4	√	Reword as by the time it is submitted to NWBC there will be a Screening Report submitted with the plan – a SEA/HRA is not needed
5		√	Remove the word “must” and replace with “should”
7	Key	√	The development boundary is shown as red – the key colour is black/grey
12	4th	√	...Housing gives way green spaces (word missing). Reword the second sentence as it refers to open countryside and outside the development boundaries which is true but it is actually Green Belt
13/14		√	With reference to the greenspaces we suggest that they are numbered and then shown as numbers on the plan on page 14 as it is hard to distinguish where they actually are from the map provided
16	ANP3	√	Have they consulted WCC highways on the proposed footpath on the road under the bridge – Policy ANP3? If WCC don't agree it is unlikely that the policy will be delivered
17	ANP4	√	Consider rewording as it makes it sound like it is NWBC's policy and some part of it isn't clear as to what it means. Affordable housing is still the exception and can be built in the green belt if there is a proven need. You cannot restrict development to brown field sites within the development boundary
17	Preferred Housing Sites	√	Are these the NP's favoured sites? – A and B have permission and are not NWBC allocated sites
17/18	Map/ANP5	√	The map shows 4 sites with recent new building yet the text on page 18 refers to an extra 2 sites

18	ANP5	√	The text refers to only being 2 NWBC Preferred sites that will accommodate more than one house which is incorrect as there are 3 sites
18	ANP6	√	Delete the word "MUST" and replace with "SHOULD"
18/19	Criteria	√	The criteria are not simply copied from the "Building for Life 12 Design Council" so it would be advisable to remove the reference at the bottom and simply add a sentence at the start of the criteria saying that the criteria are adapted from the Building for Life
19	Paragraph after criteria	√	Delete the word "MUST" and replace with "SHOULD"
20	Number 1	√	Delete the word "MUST" and replace with "SHOULD"
20	Number 2	√	Delete the word " that "
22	ANP9	√	Confused as to what is meant by the 3 rd paragraph

Planning consultation: Arley Neighbourhood Plan
Location: Arley, North Warwickshire

Thank you for your consultation on the above dated 23 July 2015

Introduction

Natural England is a statutory consultee in neighbourhood planning and must be consulted on draft neighbourhood development plans by the Parish/Town Councils or Neighbourhood Forums where they consider our interests would be affected by the proposals made.

Natural England does not have the resources to get involved in all neighbourhood plans and will prioritise our detailed engagement to those plans that may impact on internationally or nationally designated nature conservation sites, and/or require Strategic Environmental Assessment or screening for Habitats Regulations Assessment.

We must be consulted on draft Neighbourhood Development Orders and Community Right to Build Orders where proposals are likely to affect a Site of Special Scientific Interest or 20 hectares or more of Best and Most Versatile agricultural land. We must also be consulted on Strategic Environmental Assessments, Habitats Regulations Assessment screening and Environmental Impact Assessments, where these are required.

Natural England generally welcomes the draft neighbourhood plan which sets out policies that will guide the future sustainable development of Arley.

We would also like to take this opportunity to welcome the following policies (and have provided advice/supporting information where appropriate):

ANP2: Green Space Strategy.

ANP4: Maintain the balance between the natural and built environment that has evolved to give us Arley as it is today.

Green Space Policies

Natural England consider the incorporation of high quality, sustainable and multifunctional greenspace within built development can provide a range of economic, environmental and social benefits and is fundamental to the creation of sustainable communities.

Green infrastructure (GI) can perform a range of functions including improved flood risk management, provision of accessible green space, climate change adaptation and biodiversity enhancement. GI can

improve connectivity to other green spaces, provide opportunities for recreation, promote sustainable transport and enhance landscape character.

We are pleased the proposed plan embraces the principles of green infrastructure by incorporating provision of green space, formed from a network of key open spaces and green corridors. This GI offers the potential to deliver multiple benefits for both people and wildlife providing opportunities for recreation, biodiversity enhancement and access to nature.

Natural England encourages GI that has been designed in response to the existing landscape features and aims to deliver biodiversity enhancement through the creation of new habitats that contribute to local biodiversity priorities identified in the local Biodiversity Action Plan.

GI can be designed to maximise the benefits needed for this development. Additional evidence and case studies on green infrastructure, including the economic benefits of GI can be found on the Natural England [Green Infrastructure web pages](#).

Local Sites

There are a number of locally designated sites within the neighbourhood boundary. We recommend that you seek further information from the appropriate bodies (which may include the local records centre, your local wildlife trust, local geoconservation group or other recording society and a local landscape characterisation document) in order to ensure you have sufficient information to fully understand features of interest.

General support available for Neighbourhood Plans

Natural England, together with the Environment Agency, English Heritage and Forestry Commission has published joint advice on neighbourhood planning which sets out sources of environmental information and ideas on incorporating the environment into plans and development proposals. This is available at: <http://publications.environment-agency.gov.uk/PDF/GEHO0212BWAZ-E-E.pdf>

Local environmental record centres hold a range of information on the natural environment. A list of local records centre is available at: <http://www.nbn-nfbr.org.uk/nfbr.php>

Should the proposal be amended in a way which significantly affects its impact on the natural environment then, in accordance with Section 4 of the Natural Environment and Rural Communities Act 2006, Natural England should be consulted again at consultations@naturalengland.org.uk

We really value your feedback to help us improve the service we offer. We have attached a feedback form to this letter and welcome any comments you might have about our service.

Yours faithfully

Dear Ms Wilson

Planning consultation: Arley Neighbourhood Plan SEA

Thank you for your consultation on the above dated and received by Natural England on 13 July 2015.

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

Screening Request: Strategic Environmental Assessment

It is our advice, on the basis of the material supplied with the consultation, that, in so far as our strategic environmental interests (including but not limited to statutory designated sites, landscapes and protected species, geology and soils) are concerned, that there are unlikely to be significant environmental effects from the proposed plan.

Neighbourhood Plan

We have checked our records and based on the information provided, we can confirm that in our view the allocations contained within the plan will not have significant effects on sensitive sites that Natural England has a statutory duty to protect.

We are not aware of significant populations of protected species which are likely to be affected by the policies / proposals within the plan. It remains the case, however, that the responsible authority should provide information supporting this screening decision, sufficient to assess whether protected species are likely to be affected.

Notwithstanding this advice, Natural England does not routinely maintain locally specific data on all potential environmental assets. As a result the responsible authority should raise environmental issues that we have not identified on local or national biodiversity action plan species and/or habitats, local wildlife sites or local landscape character, with its own ecological and/or landscape advisers, local record centre, recording society or wildlife body on the local landscape and biodiversity receptors that may be affected by this plan, before determining whether an SEA is necessary.

Please note that Natural England reserves the right to provide further comments on the environmental assessment of the plan beyond this SEA screening stage, should the responsible authority seek our views on the scoping or environmental report stages. This includes any third party appeal against any screening decision you may make.

Page 1 of 2

Natural England is accredited to the Cabinet Office Service Excellence Standard

In relation to the Habitats Regulations, a Neighbourhood Plan cannot progress if the likelihood of significant effects on any European Site, either alone (or in combination with other plans and projects) cannot be ruled out (see Schedule 2, The Neighbourhood Planning (General) Regulations 2012). Therefore measures may need to be incorporated into the Neighbourhood Plan to ensure that any likely significant effects are avoided in order to secure compliance with the Regulations. A screening exercise should be undertaken if there is any doubt about the possible effects of the Plan on European protected sites. This will be particularly important if a Neighbourhood Plan is to progress before a Local Plan has been adopted and/or the Neighbourhood Plan proposes development which has not been assessed and/or included in the Habitats Regulations Assessment for the Local Plan.

We would be happy to comment further should the need arise but if in the meantime you have any queries please do not hesitate to contact us.

For any queries relating to the specific advice in this letter only please contact Kayleigh Cheese on 0300 060 1411. For any new consultations, or to provide further information on this consultation please send your correspondences to consultations@naturalengland.org.uk.

We really value your feedback to help us improve the service we offer. We have attached a feedback form to this letter and welcome any comments you might have about our service.

Yours sincerely

06 August 2015

Dear Ms Barratt

ARLEY DRAFT NEIGHBOURHOOD PLAN CONSULTATION

Thank you for consulting Historic England on the above Plan.

We consider that as currently constituted the plan sets out a quite comprehensive outline of the issues and options for Arley and an outline of policy considerations. We assume that this will be followed by a more detailed draft with specific policies designed to address the issues identified.

In this respect we note that much emphasis is placed upon the maintenance of the rural character of the Parish and we unequivocally support that in principle. However, in our view the current landscape context of New and Old Arley owes much to the urban form of the mining settlements themselves and the industries that supported them.

We consider that the evolutionary change evident in the urban development of Old Arley and the “model village” aspect of the miner’s accommodation in New Arley are of considerable historic environment significance in their own right. This would include the townscape of the settlements and the individual heritage assets that are components of that.

Currently the value that the community places in the fabric of the settlements in which they live and work is obliquely referred to and may be implicit in the draft plan but in the view of historic England there is every justification for this aspect to be given much more explicit definition and for policy to be developed to conserve it. This approach is given direct support in the National Planning Policy Framework (NPPF).

A core planning principle set out in paragraph 17 of the NPPF is to:

“conserve heritage assets in a manner appropriate to their significance, so that they can be enjoyed for their contribution to the quality of life of this and future generations;”

“Heritage asset” is precisely defined in the glossary of the National Planning Policy Framework (NPPF) as set out below:

“Heritage asset: A building, monument, site, place, area or landscape identified as having a degree of significance meriting consideration in planning decisions, because of its heritage interest. Heritage asset includes designated heritage assets and assets identified by the local planning authority (including local listing)”.

Historic England therefore strongly recommends that in producing detailed policies in the next iteration of the Neighbourhood Plan consideration is given to addressing the following **historic environment policy aim** viz:

To ensure that development protects, enhances and promotes the special qualities, historic character and local distinctiveness of Old and New Arley and the distinctive semi-rural character of surrounding areas in order to help maintain its cultural identity and strong sense of place.

I hope this is helpful to you and please do not hesitate to contact me if you would like clarification or to discuss this further.

Yours faithfully

A handwritten signature in black ink, appearing to read 'P. Boland', with a stylized flourish at the end.

COMMENT	ACTION
<p>Page 9 – can you change the description of Daffern’s Wood to be an ancient woodland rather than old woodland as the use of the term ancient means that the area of woodland is at least 400 years old. It was also recently designated as the first official Local Nature Reserve in North Warwickshire, perhaps this could be added to Map 7.</p>	<p>Description change made. No change made to OS map designation</p>
<p>Page 13 – the final Informal amenity / open space is given as around the Methodist Hall’ it should be around the Old Barn. There is no green space around the Methodist Hall as far as I am aware.</p>	<p>Change made</p>
<p>Page 14 – the map shows the Methodist Hall in Old Arley at the junction with Oak Avenue, I think this should be renamed as the Old Barn. Meadow Croft and Rowland court are in the wrong order – Meadow Croft is north of Rowland Court.</p>	<p>Change Made</p>
<p>Page 18 – the 42 houses are shown as Ransome Road but are referred to as Colliers Green in other parts of the document, perhaps the reference in the table should be New Arley- Colliers Green (off Ransome Road) 42 houses to avoid confusion.</p>	<p>Change made</p>
<p>Page 21 – in the list of Community Rooms is references Stuart Court I think this should be Stewart Court. Similarly should it be Meadow Croft not Meadowcroft. Also nature reserves should be plural as there are several in the villages.</p>	<p>Change made</p>

Jim Rowe
