19 October 2018

Dear Kerry,

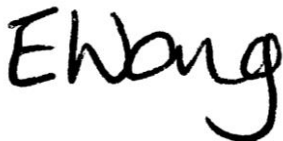

North Warwickshire Borough Council Local Plan

We noted in our letter to you dated 19th September 2018 that, although the extensive traffic modelling undertaken for the Local Plan provided appropriate evidence for the plan, we had raised some issues should the modelling be used to assess detailed scheme options and inform the preparation of business cases for investment.

We are happy to confirm that, following dialogue with Warwickshire County Council and their consultants Vectos Microsim, together with further review on our part, these issues have been addressed. We can therefore confirm that we are satisfied for the model to be used for purposes outside of the Local Plan process.

We trust this is useful.

Yours sincerely

Eri Wong
