'Have Your Say' question update – "why has separated recycling waste been seen to be put all together in one collection vehicle?"

Answer provided by the Assistant Director (Streetscape) NWBC – “At the moment, we have three freighters which can split the collections and we are hoping to have at least nine in the near future. If any of the split freighters break down or are off the road for any reason, we have to use a regular bin lorry. Although it looks as though the recyclables are mixed, please be reassured that in these occasional instances everything is sorted later and recycled”.
