Please Note:

- 1) Road Safety Data is not available before 20th of each month. Therefore, the previous month will show 'TBC' and performance vs same period last year comparisons can not be made.
- 2) Proportions of MARAC factors relate to the number of victims and offenders discussed in a case, which will result in some proportions possibly being over 100%.
- 3) Cyber Fraud - Theft' offences only incorporate offences with a cyber flag relating to 'Theft,' Theft other' and 'blackmail' offences.
- 4) Total Vehicle Crime is a total of 'Aggravated Vehicle Taking', 'Interfering with a Motor Vehicle', 'Theft or Unauthorised Taking of a Motor Vehicle' and 'Theft From a Vehicle' offences - only the
- 5) From April 2025, MARAC Data is available at district and borough level for all areas of Warwickshire. However, comparisons to 24/25 are not available.

* This is based on themes specific to the rural crime strategy (e.g. acquisitive crime on farms, equine, livestock offences, etc).

** 'Cyber Fraud - Theft' offences only incorporate offences with a cyber flag relating to 'Theft,' Theft other' and 'blackmail' offences.

Notes to this report:

This is the latest in a series of quarterly reports produced for the North Warwickshire Community Safety Partnership, providing an overview of recorded crime and disorder data.

Included in this report is data obtained from partners relating to the North Warwickshire Priorities for 2021-2025, as shown in the graphic on this page.

Comparisons to last year are included in this report following the colour coding method of:

- Green** = greater than 5% reduction
- Amber** = within +/- 5%
- Red** = greater than 5% increase

It must be noted that the worldwide COVID-19 pandemic and consequent lockdowns occurred throughout 2020/21 and as such any long term trends including this time period must take into account irregular trends during this time.

As of Q2 2021 additional partner data has been included to provide CSPs with a broader overview of trends relating to the priorities. As this is a new process, some data comparisons may not yet be available.

The figures should not be reproduced outside of the Partnership without permission from the owners of the data.

North Warwickshire CSP Priorities for 2021-2025

From January 2024, the majority of the data in this report is taken from the Warwickshire Community Safety Dashboard. Please contact businessintelligence@warwickshire.gov.uk for access.

This is the final quarterly report looking at the 2021-2025 priorities.

The next quarterly report will look to the new priorities agreed for 2025/26 to 2028/29

Performance – North Warwickshire CSP Priority – 1) Violent crime with a focus on knife crime, domestic abuse and alcohol related violence
 Serious Violence priorities – Domestic Violence

Violence Offences:

Reported Violence with injury Offences FYTD	Reported Violence without injury Offences FYTD
514	941
-6.4%	-6.7%
FYTD vs LY	FYTD vs LY

Financial Year	Q1	Q2	Q3	Q4	Total
2024/25	360	377	338	380	1455
VIOLENCE WITH INJURY	118	139	125	132	514
VIOLENCE WITHOUT INJURY	242	238	213	248	941
Total	360	377	338	380	1455

Violence Offences, Q4 2024/25

Atherstone town centre LSOA, 23 offences

Hartshill North & Caldecote LSOA, 21 offences

Darker pink represents higher volumes

© Crown Copyright and database right 2025. Ordnance Survey AC000019520.

Violence offences are lower than last year, though offence volumes this quarter are the highest for violence without injury and higher than last quarter for violence with injury, which is in contrast to expected seasonal trends.

Atherstone town centre LSOA has seen the most violence offences this quarter (23), and Hartshill North & Caldecote LSOA the second highest (21).

Over two thirds of the reported violent offences this quarter occurred in a home address (69%). Fifty-nine offences occurred in the street (16%). Seventeen offences occurred in six schools this quarter.

Domestic Violence Offences:

Reported Domestic Violence with injury Offences FYTD	Reported Domestic Violence without injury Offences FYTD
157	385
-14.7%	1.0%
FYTD vs LY	FYTD vs LY

Volumes of **domestic related violence with injury** offences are lower year to date than last year, but **domestic related violence without injury** offences are similar to last year. Indeed, 31% of overall **violence with injury** offences so far this year in the borough are domestic related. However, analysis suggests that the increase is not in high-risk incidents with increases only in medium risk DARAs and referrals to Refuge this year are slightly lower than last year.

Knife Violence Offences:

Reported Violence with injury Offences FYTD	Reported Violence without injury Offences FYTD
14	5
-17.6%	0.0%
FYTD vs LY	FYTD vs LY

Knife related violence offences overall this year are lower than last year. All incidents this quarter resulted in injury, with five occurring in the home (the other in the street) and four of them having a domestic flag.

Alcohol Related Violence Offences:

Financial Year	Q1	Q2	Q3	Q4	Total
2024/25	25	27	22	22	96
VIOLENCE WITH INJURY	16	11	13	6	46
VIOLENCE WITHOUT INJURY	9	16	9	16	50
Total	25	27	22	22	96

Volumes of **violent offences** in the borough this year where **alcohol** has been noted are lower than last year by -15%, and this reduction has been seen in both violence with and without injury offences.

Performance – North Warwickshire CSP Priority – 2) Serious Acquisitive Crime focusing on residential burglary (dwelling), vehicle crime and personal robbery
3) Rural crime based on the rural and wildlife crime strategy definition

Residential Burglary, Vehicle Crime and Personal Robbery Offences, Q4 2024/25

Fillongley & The Packingtons LSOA, 23 offences

© Crown Copyright and database right 2025. Ordnance Survey AC000019520.

Residential Burglary offence volumes are similar to last year due to a lower number of offences in Q4, compared to a 10% increase countywide. Volumes of offences in the borough remain below pre-pandemic levels. **Dordon Rural LSOA** (4) recorded the most offences in this latest quarter. Offences have varied however vehicles were the target in a number of offences this quarter.

Vehicle offence volumes are higher than last year, despite seeing reductions in Q4. There continue to be offences at Corley services, contributing to volumes within **Corley LSOA**. However, most offences were spread across the borough. Items taken included number plates from cars and tools from vans. It is also evident from analysis that cars are being left unlocked, leaving them vulnerable to vehicle crime, particularly thefts from vehicles.

NW CSP to consider crime prevention advice for residents to remember to lock their vehicles even if only away from them for a short time.

There were six **personal robbery offences** during this latest quarter, one of which involved a knife. Three of these offences took place on the street, and three in private dwellings. Overall offences this year have seen an 8% reduction on last year, however these offences are small in number.

Rural Crime – Rural crime and incidents dealt with by the **Warwickshire Rural Crime Team** this financial year have ended slightly lower than last year (238 offences compared to 254 in 2023/24, a 6% reduction). **Op Snap** reports are now being included in the rural crime data and this relates to all incidents involving equine and livestock on roads. A third of the reports in the borough this quarter relate to these incidents (18 incidents, 32%). Fly tipping and fuel related rural crime have reduced during this latest quarter. In addition, as mentioned last quarter, incidents at farms have increased but this is also due to the team now dealing with all incidents on farms.

Performance – North Warwickshire CSP Priority – 4) Road Safety with a focus on road traffic accidents resulting in Killed or Seriously Injured (KSI)

Performance – North Warwickshire CSP Cross-Cutting Theme – Public Perception of Crime

KSI – At year end, collisions involving **fatalities** are at lower levels than last year, with one **fatal** KSI compared to 9 in the year 2023/24. In terms of incidents resulting in serious injuries, these numbers are exactly the same as last year (56 incidents).

Other Partnership Data for North Warwickshire Borough over time

Partnership Agency ● KSI - Fatal ● KSI - Serious

Perception of Crime – There have been no reports to the Streetsafe tool from residents of North Warwickshire Borough during this latest quarter and only one in total for the whole year. This related to ‘verbal harassment from a stranger’.

Performance – North Warwickshire CSP Cross-Cutting Theme – Vulnerability
 Serious Violence Priority – School pupils – exclusions, persistent absence and attainment

Vulnerability:

Exploitation – Offences of **child sexual exploitation** are higher than last year in the borough, with 15 reported offences during the year (six of these in Q4) compared to 8 during the whole of the previous year. However, this is a countywide trend, with increases seen across all districts and boroughs, suggesting that there is better identification of these types of offences.

Return Home Interviews have increased again this quarter (8), with four of these having a criminal exploitation flag.

Although **absence and exclusions** from school are available for the first term of 2024/25 school year, these will be more reliable when there are two terms of data available.

Domestic Abuse – Reported offence volumes have increased in this latest quarter compared to the previous quarter. However, the overall annual volumes of all domestic abuse related offences are similar to the 2023/24 year.

Hate crime – Reported offence volumes are similar in this latest quarter compared to the previous quarter. Overall annual volumes are similar to the 2023/24 year. **Racist** related hate crime remains the most prominent in North Warwickshire Borough (43 reports), following the county trend. **Sexual orientation** is the second highest hate crime type (14 reports) so far this year. There have been 12 reports of **prejudice related incidents in school** so far this financial year. Where stated, all were relating to racism. This is the second lowest volume of reports in the county.

ASB: **ASB** reports to the police are overall similar to last year. This is despite higher volumes of **personal ASB** reports this year (+40%, 293 reports). The higher volumes of personal ASB are a countywide trend and although a clear reason for this is not known, it has been suggested that targeted patrolling as part of **Op Resolve** and also a revised Police Force ASB policy placing a focus on resourcing personal ASB may be contributing factors.

Reported ASB Incidents FYTD
924

1.1%
 ASB TY vs LY

Nuisance ASB is lower than last year although it is still the highest volume ASB type, and **Environmental ASB** has increased (7%, 93 offences.)

All ASB reported in North Warwickshire Borough, by Type

Summary of Key Findings – Q4 24/25

- **Violence** offences are lower than last year, though offence volumes this quarter are the highest for violence without injury and higher than last quarter for violence with injury, which is in contrast to expected seasonal trends.
- **Knife related violence offences** overall this year are lower than last year. All incidents this quarter resulted in injury
- **Domestic related violence** with injury offences are lower year than last year, but domestic related **violence without injury** offences are similar to last year. Indeed, 31% of overall **violence with injury** offences so far this year in the borough are domestic related.
- **Residential Burglary** offence volumes are similar to last year due to a lower number of offences in Q4, whereas they have increased by over 10% countywide.
- **Vehicle offences** volumes are higher than last year, despite seeing reductions in Q4. It is also evident from analysis that vehicles are being left unlocked, leaving them vulnerable to vehicle crime, particularly theft from vehicle.

NW CSP to consider crime prevention advice for residents to remember to lock their vehicle even if only away from them for a short time.

- At year end, **rural crime** and incidents dealt with by the **Warwickshire Rural Crime Team** this financial year are slightly lower than last year.
- Collisions involving **seriously injured incidents** remain at same levels as last year, however **fatal** KSIs have reduced.
- Offences of **child sexual exploitation** are higher than last year in the borough, with 15 reported offences during the year (six of these in Q4) compared to 8 during the whole of the previous year. This is a countywide trend.
- **ASB** reports to the police are overall similar to last year. This is despite higher volumes of **personal ASB** reports this year (+40%, 293 reports).
