Agenda Item No 7

Community and Environment Board

16 July 2018

Report of the Assistant Director (Leisure and Community Development) Leisure Facilities: Service Improvement Plan and Key Performance Indicators

1 Summary

1.1 This reports asks Members to adopt or otherwise amend the draft Service Improvement Plan, which will be used to guide the work of the Borough Council's Leisure Facilities section through to March 2020. It also presents the section's latest performance against the approved set of key indicators through which the Board monitors the operational and financial performance of the leisure facilities at each of its meetings.

Recommendation to the Board

- a That Members approve or otherwise amend the draft Service Improvement Plan that will be used to guide the work of the Borough Council's Leisure Facilities section through to March 2020; and
- b That the Board notes and comments upon the section's performance against the approved set of key indicators through which the Board monitors the operational and financial performance of the leisure facilities at each of its meetings.

2 Consultation

2.1 Consultation has taken place with relevant Members and any comments received will be reported at the meeting.

3 Introduction

3.1 As Members are aware, Full Council, at its meeting held in February 2018, approved the recommendations made by external consultants in respect of the Leisure Facilities Operational Review and the associated Appraisal of Future Delivery Options that were part of the Strategic Leisure Review commission. Copies of both documents are available in a clearly marked file within each Political Group Room.

- 3.2 In order to draw conclusions about the relative effectiveness of the in-house service, the consultants, in 2017, reviewed a number of key performance indicators, as well as the challenges facing the service. They identified that the leisure facilities portfolio was challenging to manage and operate and that, with the exception of Coleshill Leisure Centre, the facilities were ageing. The consultants highlighted that usage; membership levels and operational performance were a reflection of the Borough's communities, as well as the age, nature and location of the facilities.
- 3.3 In recognising that there had been progress in respect of moving the in-house operation in the right direction, the consultants concluded that its performance had the potential to improve, and reduce costs, further. They advised that inhouse operational effectiveness could be improved through:
 - The development of a Service Improvement Plan (SIP)
 - The setting of specific Key Performance Indicators (KPIs) as part of the SIP
 - A review and restructuring of existing staff numbers, roles and responsibilities
- 3.4 Accordingly, the consultants' related key operational recommendations included the following:
 - Recommendation 1

That operational management delivery arrangements be retained inhouse for 24 months, with a Service Improvement Plan put in place to improve the operating position of the current service

• Recommendation 2

That the Borough Council's in-house operational team develop and implement a Service Improvement Plan to improve the current operational position and to demonstrate best value

• Recommendation 5

. . .

That the Borough Council reviews the effectiveness of implemented service improvements after the agreed period

3.5 In approving the recommendations made by the external consultants, Full Council instructed Officers to draft a Leisure Facilities Service Improvement Plan for the consideration of, and regular monitoring by, the Community and Environment Board. Accordingly, a copy of the draft SIP is attached at Appendix A for the consideration of the Board. The SIP includes the specific key performance indicators approved by the Board at its meeting held in March 2018. These indicators will be used by both Councillors and senior management to regularly monitor and direct the financial and operational performance of the leisure facilities.

4 Service Improvement Plan and Key Performance Indicators

- 4.1 The draft Leisure Facilities Service Improvement Plan covers the period through to March 2020, in order to coincide with the approved Operational Review recommendations (see paragraph 3.4 above). The draft Plan outlines what the service intends to achieve, based on the financial and employee resources to which it has access. The draft Plan assists in shaping the direction for the service and outlines key actions, work programmes and improvements to be sought over the 24 months.
- 4.2 The major influence on the draft Plan is the need to improve the operational performance within the leisure facilities and it sets out a number of actions through which this challenge will be addressed. The draft Plan, however, is also intended to have clear links to the following corporate priorities:
 - Responsible financial and resource management
 - Creating safer communities
 - Improving leisure and wellbeing opportunities
 - Promoting sustainable and vibrant communities
- 4.3 As well as highlighting a number of key actions that are specific to each individual facility, the draft Plan also identifies the improvements that will be sought within areas that are fundamental to the successful operation of any leisure facility:
 - Finance and pricing
 - Staffing
 - Programming
 - Marketing and promotion
 - Key Performance Indicators (approved by the Board in March 2018)
 - Community
 - Health and safety
 - Maintenance
 - Technology
 - Monitoring, review and evaluation
- 4.4 Members are asked to consider, approve or otherwise amend the draft Service Improvement Plan that will be used to guide the work of the Borough Council's Leisure Facilities section through to March 2020.
- 4.5 Members will recall that the staff structure within the Leisure Facilities section had been revised prior to receipt of the consultants' draft proposals, both in order to reduce cost and also to provide it with a more focused, operationally efficient outlook. As such, the section is well placed to respond positively to the need for further improvement. The early work of the Business Development team has concentrated on making effective use of the Gladstone leisure management system, thereby ensuring the availability of reliable performance information, the production of the Service Improvement Plan and the associated KPIs and the development of an improvement in the

marketing and promotion of the service, including through social media channels.

- 4.6 Considerable time has been devoted to ensuring the integrity and consistent use of the leisure management system, which operates within Arley Sports Centre, Atherstone Leisure Complex (but not the Memorial Hall), Coleshill Leisure Centre and Polesworth Sports Centre. This has enabled the development of the key indicators that were approved by the Board in March. As well as monitoring the level of income receipts at each facility, the following suite of key performance indicators will be monitored and managed within the Leisure Facilities section:
 - Total number of members
 - Total number of visits
 - Total income per visit
 - Subsidy per visit

. . .

- Staff cost v total income
- Staff cost v total cost
- Operational recovery rate
- Income per fitness station
- Number of members per fitness station
- Average length of membership
- 4.7 The definitions of the listed indicators, which are widely used within the leisure industry, are identified within Appendix B, which is attached to this report.
- 4.8 The Business Development team, in conjunction with colleagues in the Finance Division, will collate, monitor and manage the indicators for each leisure facility on a regular (at least monthly) basis. Up-to-date (usually end of quarter) reports will be brought to each meeting of this Board, thereby affording Members the opportunity to both understand and direct financial and operational performance.
- 4.9 Use of the listed key performance indicators will enable the effectiveness and efficiency of each facility to be monitored, both within each financial year and over time, enabling performance comparisons to be made between different financial years. Subject to the identification of appropriate comparators, it may also be possible to benchmark local performance against that of other operators within the industry.
- 4.10 Appendix B includes three tables. The first table identifies the performance of each facility against each indicator at the end of, in this case, Quarter 1 (June 2018). The second table shows the performance of each facility at the end of each Quarter, thereby showing performance throughout the year. The end of March 2018 baseline position is identified in the third table. This table will be populated at the end of each financial year in order to provide an overall (year on year) picture of the financial and operational performance of the facilities. The information in this table has also been used to set performance targets

for 2018 / 19. The Board is asked to consider and comment upon the identified performance within the leisure facilities.

5 **Report Implications**

5.1 **Finance and Value for Money Implications**

5.1.1 Whilst there is no financial implication arising directly out of this report, the SIP and KPIs will enable the Board to monitor the financial performance of the leisure facilities at each of its meetings.

5.2 Safer Communities Implications

5.2.1 The Authority's leisure facilities contribute to community safety by providing well-managed services that afford opportunities for positive activity and, therefore, a creative alternative to potential criminal or anti-social behaviour.

5.3 **Environment, Sustainability and Health Implications**

5.3.1 Leisure facilities have a positive impact on the physical and mental wellbeing of individuals and the sustainability of local communities by providing opportunities for formal and informal recreation and by contributing to an improved quality of life.

5.4 **Equalities Implications**

5.4.1 There are no equalities implications arising directly from the report, in that the proposed SIP and approved KPIs will not have an adverse consequence on the Borough Council's drive to ensure equality of opportunity in all aspects of service provision.

5.5 Links to Council's Priorities

- 5.5.1 The Service Improvement Plan and Key Performance Indicators have direct links to the following corporate priorities:
 - Responsible financial and resource management
 - Creating safer communities
 - Improving leisure and wellbeing opportunities
 - Promoting sustainable and vibrant communities
- 5.5.2 Additionally, the Borough Council's leisure facilities contribute directly to the priorities of the Sustainable Community Strategy to:
 - Raise aspirations, educational attainment and skill levels
 - Develop healthier communities
 - Improve access to services

The Contact Officer for this report is Simon Powell (719352).

Background Papers

| Definitions/Calculation | Unit | Definition |
|----------------------------|----------|--|
| Total members | No. | All members holding a current subscription |
| Total visits | No. | All activity visits |
| Total income per visit | £ | Total income <i>divided by</i> total visits, so the higher the figure the better |
| Subsidy per visit | £ | Total costs (excludes CECs and capital repayments) minus total income divided by total visits, so the higher the figure the better |
| Staff cost vs total income | % | Operational facillity staff cost <i>divided by</i> total income, so the lower the figure the better |
| Staff cost vs total cost | % | Operational facility staff cost divided by total cost (excludes CECs and capital repayments), so the lower the figure the better |
| Operating recovery rate | % | Total income <i>divided by</i> total cost (excludes CECs and capital repayments), so the higher the figure the better |
| Income per station | £ | Gym and classes income <i>divided by</i> number of stations, so the higher the figure the better |
| Members per station | No. | All gym members <i>divided by</i> number of stations, so the higher the figure the better |
| Length of stay | No. Mths | Average length of direct debit membership (inc current members), so the higher the figure the better |
