

ROAD CLOSURE INFORMATION

STAGE 4: ATHERSTONE TO BURTON DASSETT HILLS COUNTRY PARK - FRIDAY 5 SEPTEMBER 2025

Wanting to find out when the world's best riders will be coming down your road? Look no further, below are the estimated timings that the Lloyds Tour of Britain Men riders will be racing along your streets.

How do rolling road closures work?

We operate a 'rolling road closure' system rather than a full road closure to minimise disruption to the local community as much as possible. Therefore, the roads will only be closed for a short window – approximately 30-40 minutes – while the race passes through.

The rolling road closure entails closing roads along the Lloyds Tour of Britain route, and junctions with access roads to the route, ahead of when the race is expected to pass and while the race moves through.

The length of closure of the rolling road block depends upon how spread out the riders are. Typically, the lead motorcycle instigating the closure is 15 minutes ahead of the lead rider. The closure then remains in place until all riders and race cars have passed through.

The rolling road closure works like a moving bubble: the edges of the bubble are maintained by the police escort bikes and race safety and support cars at the front and rear of the race, while the race itself (i.e. the riders) sits in the centre of the bubble.

We hope to see you on the side of the road cheering on our riders.

Please note:

The following timings should be used as estimates only, as is the nature with live sport, there are unpredictable circumstances that may affect the pace of the riders and subsequently may affect the time your road will be closed. The times have been estimated based on the average speed that our riders race at.
